Successfully.

Empathy: She is very much sympathetic to the people around and always comes first to helping us.

problem solving: She is a magical problem solver.

Analysis of the information:

The current scenario of the adolescents in our country is not satisfactory at all. Most of them are suffering from educational disruption due to year-long closure of educational institutions for COVID-19. However, some of these adolescents are trying to keep regular pace of study through online and or virtual classes and internet. But, as a whole it can easily be said that their studies are hampered and interrupted. Some of these adolescents have well-articulated future plans and goals and some don't. Although some of these young population have high moral and ethical value but their counterpart is motto is to be rich. Only then will be able to prove ourselves a happy, prosperous and developed nation and country as well.

The current scenario of the adolescents in our country is not satisfactory at all. Most of them are suffering from educational disruption due to year-long closure of educational institutions for Covid-19. However, some of these adolescents are trying to keep regular pace of study through online and or virtual classes and internet. But as a whole it can easily be said that their studies are hampered and interrupted. Some of these adolescents have well-articulated future plan and goals and some don't. Although some of these young population have high moral and ethical value but their counterpart's motto is to be rich. The manner or way to becoming rich isn't important to them. Our society is unable to nurture to them well as an ideal or good citizen. The future of our nation lies in the hands of these adolescents, they need to educate them properly and keep pace with the other nations of the world. Only then we'll be able to prove ourselves a happy, ~~Pro~~ prosperous and developed nation and country as well.
